Subject: Uber

I have had nothing but wonderful experiences with Uber around this country of ours. I was so excited when they came to South Carolina. Please change your minds. Healthy competition has always been what our country is about. In my several years of using Uber I've never run into a unprofessional driver. I can not say the same about some Taxi services I've used. Let's find away to make Uber work. Thanks!

Robert Conner

Allow Uber to operate as Greenville is a growing area in need of safe and reliable transportation other than personal vehicles and current taxi services.

Subject: Support for Uber

I am writing to support Uber in South Carolina. The time has come for the upstate to have a transportation alternative that works for the people of this region and the state.

I use uber in charleston all the time it is great and is the easiest way to find a cab. Charleston's other cab companies are not easy to use or find a cab. Any law made against uber I will be sure to oppose along with a strong coalition of others who I know feel the same way.

Subject: Keep Uber in SC

As a permanently disabled person living in Columbia, I have to use many forms of public transportation. This includes multiple taxi companies, Greyhound, Amtrak and Uber. By far, HANDS DOWN Uber has been the most responsive, cost effective alternative in town. Most of my cab experiences have been bad. Drivers get lost, sometimes forcing me to pay in cash, drive dirty vehicles, surly drivers who 100% of the time complained about their cab company. I had one cab driver take me from the train station at 3:00 am three miles to my home and complained that it was such a short fare. He said he would rather drive pimps and drug dealers around then take short fares, also because they tip good.

In comparison, the dozen or more Uber drivers I've used have been on time, used GPS to get me to my destination in the shortest, timeliest route. Every car has been spotless inside and out. Every driver has been professional, courteous and safe. Drivers come from all walks of life. Some of my drivers were professionals, retired persons, law enforcement or under employed working at Uber to help their budget.

Keep South Carolina progressive! Keep free enterprise alive! Keep complacent cab companies on their toes!
Keep Uber!

Always,

Jim Dukes
Columbia Resident and Uber user
